

# Beyond binaries

Answer the top questions with words and the bottom questions with a number referencing the scale indicated, or with "X," "n/a," or "?" If your gender identity means it is challenging to define 'different' and 'similar', please respond by putting "X" instead of a number. If you haven't had this experience, put "n/a." Unsure? Answer with "?" Remember that if you don't fit easily into this tool, the limitation lies with the tool, not with you.

## using words:

Publicly, my gender identity is: \_\_\_\_\_

Publicly, the word(s) I use for my sexuality is: \_\_\_\_\_
